

PINE-STRAWBERRY WATER IMPROVEMENT DISTRICT

Board Action Item

MEETING DATE:	June 29, 2023
AGENDA ITEM:	6.c
PRESENTER:	George Gorkowski
SUBJECT:	Vice Chairman's Report

Moratorium Update

We will be monitoring the Supply versus Demand water usage closely during the “High Demand” season. We are looking at Theoretical well water supply versus Actual well availability. In other words, Total well output with all wells functioning versus total well output minus well that are not available (down for repair, not seasonally needed, etc.). We are also finalizing a meter release plan and will present it to the board for review.

Our next action:

- Continue to gather demand data for the “High Demand Season.”
- Finalize our release priority plan and gain board approval.
- Present the supply/demand data from the “High Demand Season” to the board for evaluation of a meter release plan tied to current data.

We plan to present the entire package to the board after the “High demand season” data is collected.

Regards,

George Gorkowski
PSWID Vice Chairman
