OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements included in the end-of-month report.

The budget reports outline the District's operations as compared to the approved budget. The statement of net position presents information on all the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. The statement of revenues, expenses, and changes in net position presents information showing how the District's net position changed during the most recent period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods. The statement of cash flows presents the cash inflows and outflows related to the District's operations.

Other reports to the board are included in the end-of-month reports, such as bank account summaries, operational performance reports, and a revolving credit report. All District financial activities have been thoroughly reviewed by the Treasurer and posted to the website.

Notes to the financial statements. The notes provide essential information for a complete understanding of the data presented in the financial statements. The notes to the financial statements immediately follow the basic financial statements.
